## Performance by cognitive stage

The radar shows percent-correct per cognitive stage (Bloom).

### Typical patterns:

- **Cram learning (spike at Reproduction):** Heavy memorization → Practice more application tasks.
- **Surface profile (only Reproduction high):** Concepts known, application lacking → Add case studies.
- **Application focus (Application high):** Good practice, factual gaps → Refresh basics.
- **Analytical strength (Analysis high):** Strong problem-solving, foundation gaps → Review fundamentals.
- **Balanced (round polygon):** Solid competence → Keep it up!
- **Zigzag profile (irregular):** Inconsistent strategy → Target specific gaps.

Stage	Hits	Quota
Reproduction	2/2	100 %
Application	2/2	100 %
